

FREQUENTLY ASKED QUESTIONS
LEANDER® HIGH CHAIR

201701

| | QUESTIONS | ANSWER |
|---------------|--|---|
| Functionality | What is special about the Leander® chair compared to other chairs? | The chair's slightly springy structure gives your child a natural sense of freedom of movement, also when your child is sitting at the table. |
| | Can the chair be adjusted for my child? | The back, seat and foot plate are all adjustable, giving ergonomically correct support to children of all ages. |
| | Does the chair give proper support? | The chair's soft, round forms also characterise both the back and the safety bar. This embraces your child, giving good side support. |
| | How long can my child use the chair? | The many adjustment settings mean that the chair can be used for babies, right up to adulthood. |
| Design | Does the chair comply with current safety requirements? | The current safety requirements for the chair back's height and the legs' depth are integrated in the chair's design. |
| | Can the chair tip over? | The slightly moulded legs provide stability and prevent the chair from tipping backwards. |
| | What does the chair weigh? | The chair only weighs 5.1 kg. This makes it easy to move the chair around. For both children and adults. |
| | How much weight can the chair bear? | The chair is also comfortable for adults to use, and can bear a weight of up to 125 kg. |
| Accessories | What does it include? | The chair is sold without accessories. |
| | Which accessories are available? | Safety bar, leather strap, harness, cushions and tray table can be purchased as additional accessories. |
| | What colours are the cushions available in? | The cushions are available in 4 attractive and harmonious colours: Vanilla, Dark grey, Soft pink and Misty blue. |
| | Are the cushions washable? | They are machine washable at 60°C. Can be tumble dried. |
