LINEA BY LEANDER® BABY COT

BABY COT WITH A SIMPLE AND AESTHETIC LOOK

Linea by Leander® baby cot is designed for design lovers who appreciate the art of detail. The bed creates a cosy and safe sleeping environment for your child. Start using the bed with a raised base and high sides. Later when your child grows, you can put the base into a lower position. Remove one rail section when the child starts to climb the rail. When the child has outgrown the cot, you can transform the cot into a cozy little sofa.

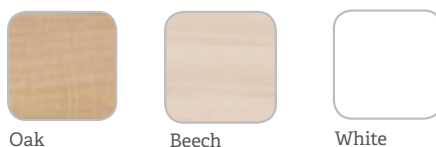

DIMENSIONS
